Non-Emergency Medical Transportation (NEMT)

If you don't have a way to get to your healthcare appointment, pharmacy or location to apply for public assistance, you may qualify for free transportation services. Iowa Total Care has partnered with **Access2Care** to provide rides to and from eligible doctor appointments.

The following NEMT exceptions apply and do not qualify for transportation services:

- ✘ **Nursing Home Residents** – appointments within 30 miles of the nursing home are the responsibility of the nursing home.
- ✘ **Neonatal Intensive Care Unit (NICU) Visits** – members visiting the NICU must seek their own transportation.

When you call to schedule a ride, **Access2Care** will verify your eligibility and then arrange the best type of ride for your needs.

Who is eligible for transportation services?

- Iowa Medicaid Members (excluding Hawki).
- Iowa Health and Wellness Plan members who have been deemed “medically exempt” by the Iowa Department of Human Services.
- Members on specific waivers* who have transportation included in their service plan.

* Four waivers include Intellectual Disability, Elderly, Brain Injury or NEMT can be Physical Disability.

NEMT can be used to see Iowa Medicaid doctors, such as your family doctor, eye doctor or dentist.

Types of Transportation

The type of vehicle used will be based on your medical condition at the time of your appointment. Members ages 16+ (or otherwise emancipated) can ride alone. Those who are 12 to 15 years of age can ride alone if they have a signed parent or guardian waiver. Minor parents (under 18 years of age) who are attending their child's medical appointment may travel alone. All other minor members must be accompanied by an adult at least 21 years old.

Van or Car – if you are able to walk, a van or car will be used. This type of vehicle may come from a taxi company, or it may come from a company that only provides NEMT.

Paratransit Vehicle – if you are in a wheelchair or motorized scooter, a paratransit vehicle (such as a van or a small bus with a lift) will be used.

Stretcher Van – if you are bedridden, a stretcher van (which often looks like an ambulance) will be used.

City Bus – you can get unlimited monthly bus passes if you have more than two medical appointments per month and live near a bus route.

You, a Friend or Family Member – if you, a friend or family member drives you to a healthcare appointment, there may be help in paying for gas. See **page 6** for information on mileage reimbursement.

Tips for Setting Up Rides

Setting Up Rides in Advance
