Prior authorization is required for mannitol inhalation powder (Bronchitol). Payment will be considered when the following criteria are met: 1. Patient has a diagnosis of cystic fibrosis; and 2. Patient meets the FDA approved age; and 3. Prescriber is a cystic fibrosis specialist or pulmonologist; and 4. Documentation is provided that patient has successfully completed the Bronchitol tolerance test (BTT); and 5. Patient will pre-medicate with a short-acting bronchodilator; and 6. Dose does not exceed the FDA approved dose. If the criteria for coverage are met, an initial authorization will be given for 6 months. Additional approvals will be granted if the following criteria are met: 1. Adherence to mannitol inhalation powder (Bronchitol) therapy is confirmed; and 2. Patient has demonstrated improvement or stability of disease symptoms, such as improvement in FEV ₁ , decrease in pulmonary exacerbations, decrease in hospitalizations, or improved quality of life. Yes Renewal Requests: Patient is adherent to Bronchitol therapy: Yes No	otoms, such as ind quality of life. uantity er (specify): s Drug Name:	Days Supply	

IMPORTANT NOTE: In evaluating requests for prior authorization the consultant will consider the treatment from the standpoint of medical necessity only. If approval of this request is granted, this does not indicate that the member continues to be eligible for Medicaid. It is the responsibility of the provider who initiates the request for prior authorization to establish by inspection of the member's Medicaid eligibility card and, if necessary by contact with the county Department of Human Services, that the member continues to be eligible for Medicaid.
