Prior authorization is required for biologicals used for inflammatory bowel disease. Request must adhere to all FDA approved labeling. Payment for non-preferred biologicals for inflammatory bowel disease will be considered only for cases in which there is documentation of a previous trial and therapy failure with a preferred agent. Payment will be considered under the following conditions: 1) Patient has been screened for hepatitis B and C, patients with active hepatitis B will not be considered for coverage; and 2) Patient has been screened for latent TB infection, patients with latent TB will only be considered after one month of TB treatment and patients with active TB will only be considered upon completion of TB treatment.
In addition to the above:
Requests for TNF Inhibitors: 1) Patient has not been treated for solid malignancies, nonmelanoma skin cancer, or lymphoproliferative malignancy within the last 5 years of starting or resuming treatment with a biological agent; and 2) Patient does not have a diagnosis of congestive heart failure (CHF) that is New York Heart Association (NYHA) class III or IV and with an ejection fraction of 50% or less.
Requests for Interleukins: Medication will not be given concurrently with live vaccines.
The required trials may be overridden when documented evidence is provided that use of these agents would be medically contraindicated.
